

Data Engineer (Remote Position)

Benefits: Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

Salary range: \$95.00 to \$110.00 hourly
Employment status: Contract / Temporary

Description

We are in search of a Data Engineer to join our team in the Business Management sector of our CPA Firm located in Chicago, Illinois. This role offers a long-term contract employment opportunity, focusing on the management and organization of large scale data projects. As a Data Engineer, you will be tasked with handling customer inquiries, maintaining customer records, and processing applications with a high level of organization and attention to detail.

Responsibilities:

- Utilize Azure Data tools such as Azure Data Bricks, Data Factory, Synapse, etc. to manage large scale data projects.
- Employ SQL and tools like PySpark to facilitate data management and analysis.
- Engage in efficient and accurate processing of customer credit applications.
- Maintain precise customer credit records and monitor customer accounts.
- Use analytics and business intelligence (BI) to inform decision-making processes.
- Leverage skills in Apache Spark, Database, EO/IR systems, and Erwin Data to enhance data processing and management.
- Employ AWS Technologies to support data storage and retrieval.
- Utilize Azure Databricks, Azure Data Factory, and Azure Data Lake to enhance data processing capabilities.
- Contribute to the development of business requirement documents to ensure alignment with project goals.
- Conduct AB Testing to evaluate the effectiveness of data management strategies.

Requirements

- Minimum of five years of experience in a similar role within a CPA Firm or Business Management sector
- Proficiency in Apache Spark, Database, EO/IR systems, and Erwin Data
- Familiarity with HDFS and AB Testing
- Proven experience in Analytics and AWS Technologies
- Demonstrable knowledge of Business Intelligence (BI) and Business Requirement Document
- Expertise in Azure Databricks, Azure Data Factory, and Azure Data Lake
- Bachelor's degree in Computer Science, Information Systems, or a related field is preferred
- Excellent communication and teamwork skills
- Ability to manage multiple projects simultaneously and meet deadlines
- Strong problem-solving skills and attention to detail
- Proven ability to work independently and make critical decisions
- Familiarity with data architecture and data processing flowchart design
- Prior experience in a fast-paced, agile work environment is beneficial.
