

## Python Programmer (Remote Position)

**Benefits:** Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

**Salary range:** DOE

**Employment status:** Contract / Temporary

### Description

We are offering a long-term contract employment opportunity for a Python Programmer. The successful candidate will be responsible for building and maintaining ETL pipelines, as well as using Python and SQL to support data warehouse initiatives. This role involves remote work, with a requirement to operate within the relevant time zone.

Responsibilities include:

- Developing and maintaining ETL pipelines as part of our data engineering strategy
- Utilizing Python and SQL in various capacities to support data warehouse initiatives
- Operating within the Agile Scrum framework to deliver projects efficiently
- Assisting in the development and maintenance of our Business Intelligence (BI) and Data Warehousing (BI DW) systems
- Ensuring the accuracy and efficiency of Python scripts
- Utilizing Microsoft SQL Server for various data handling tasks
- Collaborating with the team to ensure all data engineering tasks align with the overall business strategy
- Adapting to a remote work environment and operating within the required time zone
- Continuously learning and improving Python and SQL skills to maintain an up-to-date knowledge base.

### Requirements

- Minimum of 2 years' experience in Python programming
- Proficiency in Python scripting
- Experience with Agile Scrum methodology
- Familiarity with Microsoft SQL Server and Microsoft SQL Server
- Knowledge of Business Intelligence (BI) and Data Warehousing (BI DW)
- Understanding of Business Intelligence and Data Warehousing
- Ability to work in a high-tech engineering environment
- Strong problem-solving skills and attention to detail
- Excellent written and verbal communication skills
- Ability to work effectively in a team and independently
- Bachelor's degree in Computer Science or related field is a plus
- Willingness to continuously learn and stay updated with industry trends and advancements
- Strong multitasking skills and ability to handle multiple projects simultaneously
- Proven track record of delivering projects on time and within budget.
