

Quality Assurance Tester (Remote Position)

Benefits: Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

Salary range: \$47.50 to \$55.00 hourly
Employment status: Contract / Temporary to Hire

Description

We are offering a contract to permanent employment opportunity for a Quality Assurance Tester in the service industry, located in Arlington, Texas. The selected individual will be responsible for ensuring the quality and reliability of our software products and will play a vital role in developing and executing comprehensive test automation frameworks.

Responsibilities:

- Develop, maintain, and execute automated test scripts using C# and Selenium WebDriver
- Collaborate with software development teams to understand product requirements and create effective test plans
- Isolate and identify software defects, and work closely with developers to rectify them
- Analyze test results and compile detailed defect reports
- Participate in code reviews and ensure adherence to coding standards and best practices
- Contribute to continuous improvement of testing processes and automation initiatives
- Stay informed about emerging testing technologies and industry trends
- Use Selenium Automation and C# - Sharp for web application testing
- Maintain and improve the quality of our software products by using your C Sharp Programming (C#) skills.

Requirements

- Must have proven experience as a Quality Assurance Tester or similar role in the Service industry.
- Proficiency in C Sharp Programming (C#) is essential.
- Must have extensive knowledge of and experience with Selenium and Selenium Automation.
- Ability to document and troubleshoot errors.
- Excellent communication skills.
- Attention to detail.
- Analytical mind and problem-solving aptitude.
- Strong organizational skills.
- Must be able to work independently and as part of a team.
- Must be legally eligible to work in the specified location.
- Must have a strong commitment to quality and a thorough approach to work.
- Working knowledge of test management software will be considered a plus.
- Must have a deep understanding of the software development process.
- Ability to handle multiple tasks simultaneously.
- Excellent time management skills are necessary.
- Must be able to meet deadlines in a fast-paced quickly changing environment.
- A proactive approach to problem-solving with strong decision-making skills.
