

Senior Software Developer (Remote Position)

Benefits: Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

Salary range: \$47.50 to \$55.00 hourly

Employment status: Contract / Temporary to Hire

Description

We are offering a contract to hire employment opportunity for a Senior Software Developer in Appleton, Wisconsin. This role involves designing, developing, testing, and supporting a large enterprise solution in the Manufacturing industry. The successful candidate will be tasked with providing technical expertise, producing high-quality, configurable, and maintainable software, and defining and documenting business systems requirements in partnership.

Responsibilities:

- Analyze, design, and develop high-quality software solutions for the enterprise.
- Test software solutions to ensure functionality and efficiency.
- Provide technical expertise in the development and implementation of software solutions.
- Maintain accurate documentation of business systems requirements.
- Collaborate with various business units to define system requirements.
- Utilize skills in GitHub, Agile Scrum, API Development, ASP.NET, C# - Sharp, Entity Framework, Vue.js, and Microsoft Azure.
- Maintain high standards of software quality within the team by establishing good practices and habits.
- Identify and encourage areas for growth and improvement within the team.
- Collaborate with other software developers, business analysts, and software architects to plan, design, develop, test, and maintain business applications.
- Assist in the collection and documentation of user requirements, development of user stories, and estimates.
- Analyze and resolve technical and application problems.

Requirements

- A minimum of 5 years of professional experience as a Software Developer or a similar role in the Plastics Manufacturing industry
- Proficiency in using GitHub for version control and collaboration
- Experience with Agile Scrum methodologies for project management
- Strong understanding and experience in API development
- Expertise in ASP.NET for creating web applications
- Proficiency in C# programming language
- Experience with Entity Framework for data access
- Knowledge and experience in Vue.js for frontend development
- Experience with Microsoft Azure for cloud services
- Excellent problem-solving skills and a detail-oriented mindset
- Strong written and verbal communication skills
- Bachelor's degree in Computer Science or a related field is preferred.
